 AI Expert Level

Essenz Features

9	 Parties  Conversations in the car  Conversations in crowds or loud places  Sporting events  Travel	LEVEL 9: FIRST Focuses on your conversation partner, no matter where they are around you – automatically, even in a car. Speech is distinctly emphasized and noises are reduced more than at any other level, so you can participate in conversations even in very noisy situations and countless social events.	Conversation in Loud Noise environment¹ Conversation in a Crowd environment StereoBeam with Intelligent NoiseReduction ¹ Dynamic SpeechBeam with Intelligent NoiseReduction ¹ Dynamic SpeechBeam in car ¹ SphereSound Natural ¹ Directional SpeechBoost ¹ Additional NoiseReduction and SpeechBoost	Full-strength AI-powered SenseSonic IQ⁴ Instantly separates speech from noise from any direction and multiple speakers to deliver unprecedented speech clarity to enjoy bigger gatherings. Enjoy these benefits automatically! 
7	 Restaurants  Business meetings  Music – live and recorded  Shopping	LEVEL 7: BUSINESS Automatically focuses on speech from the front or sides. Simultaneously reduces noises from the sides or behind enabling you to participate in conversations even in rather noisy situations. Recognizes music and automatically adjusts for a music-specific listening experience.	Conversation in a Small Group environment Music environment StereoBeam with Intelligent NoiseReduction in a manual program ¹ SpeechBeam with Intelligent NoiseReduction ¹ Additional NoiseReduction and SpeechBoost	AI-powered SenseSonic IQ⁴ Instantly separates speech from noise from any direction and multiple speakers to deliver advanced speech clarity to enjoy bigger gatherings. Enjoy these benefits automatically! 
5	 Cafes  Noisy transportation  Most TV programs  Conversation partners with quiet voices	LEVEL 5: COMFORT Quiet and distant voices are boosted up, reducing listening effort. ² Also, automatically helps with conversations in numerous listening situations, including moderate noise. The hearing aids work together to maintain cues that help to tell where sounds are coming from, such as people or cars.	Noise environment Quiet environment Soft SpeechBoost ³ SphereSound ¹ Additional NoiseReduction and SpeechBoost	
3	 Small group dinners in quiet  Landline phone calls  Games with a few people	LEVEL 3: ECONOMY The hearing aids automatically adjust to loud and calm situations. Landline phone calls can be heard in both ears. Your hearing experience can be personalized even more with the app. You can answer phone calls and start or pause audio streaming just by tapping your ear.	Conversation in Noise environment Conversation in Quiet environment BiPhone ¹ Tap Control ¹ stream remote App – personalized programs ¹	
1	 1 to 1 conversations  Wireless connectivity  Rechargeable	LEVEL 1: LOWER ECONOMY Solid, basic functionality of the hearing aids and the easy-to-use app, which includes the Find my Hearing Aids feature to give you peace of mind. Your hearing aids can function like wireless earbuds to enable hands-free phone calls and media streaming from your mobile phone.	NoiseReduction SpeechBoost Sound Impulse Manager Active Wind Block Universal Connectivity ¹ stream remote App – basic adjustments ¹ Find my Hearing Aids ¹	

¹ Some features require wireless hearing aids.
² Hansaton Research Insights: Better Hearing in Quiet (2025).
³ The jazz E-10 NW O includes soft ConversationBoost instead of Soft SpeechBoost.
⁴ Hansaton Research Insights: Better Hearing in Noise with AI (2026).
